

Keep yourself and Kimberley people safe during your visit.

Coronavirus (COVID19) infection remains a risk.

Download the COVIDSAFE app. It can assist health authorities in preventing further spread of Coronavirus.

If you develop symptoms such as sore throat, dry cough or fever, contact hospitals for testing.

Wash your hands frequently.

Get your Flu Vaccination.

It is available at Pharmacies and GPs throughout the region.

Observe physical distancing from others.

Remember - always check with local Aboriginal Communities to ensure they're open to visitors prior to visiting. Many are not.
