

## Appendix P – Non-Vaccine Stock

### Consumables

- Sterile syringes (2mL, 3mL; Luer-Lock rather than Luer-Slip)
- Sterile 19 or 21 gauge, non-coring bevelled drawing up needles
- Sterile 22-25 gauge administration needles (25mm length, except people with obesity when 38mm recommended)
- Alcohol wipes (70% isopropyl) (for vial, not person's arm)
- Cotton wool balls
- Hypoallergenic tape or latex-free band aid.
- Procedure dish or trays
- Labels for syringes (KAMS will provide pre-printed labels with vaccine stock)
- Labels for opened vials to record the date and time the vial was first accessed (KAMS will provide pre-printed labels with vaccine stock)
- Clean opaque containers to store prepared doses within fridge or cooler box
- Sharps container (one per vaccinator)
- Biohazardous and other waste bins

### Personal Protective Equipment

*PPE is not specifically recommended when preparing or administering vaccines unless additional infection risk exists. PPE may be required for other reasons such as infection prevention and control.*

- Latex-free gloves
- Surgical masks
- Face protection including safety glasses or face shields
- Gowns

### Other Equipment

- Disinfectant cleaning supplies for work surface and equipment
- Basic vital signs monitoring equipment including stethoscope and blood pressure monitor
- Hand hygiene facilities and supplies; alcohol hand rub supplies
- Virucidal supplies and/or genetically modified organisms spill kit in case of spillages
- Resuscitation equipment
- Trestle table
- Office supplies
- Ice packs/gel packs
- Eskies / cooler boxes
- Thermometer
- Insulating material such as polystyrene chips or bubble wrap

### ICT Equipment

- Laptop with good internet connectivity
- Barcode scanner (optional)
- MMEx access
- Telephone access

### Anaphylaxis Response Kits

Stock Item	Amount
Adrenaline 1:1000 Ampoules	5
Alcohol Swabs	10
