DELIVERED TRAINING

In September, Tonii and Shannon delivered the Liyan Young Mob Train the Trainer course over 2 days to the WAAPI Community Navigators based in the Dampier Peninsular. This relationship was initiated by Tonii reaching out to the Community Navigators and asking “*what can we do for you and the community?*”. This consultation led to the delivery of the Liyan Young Mob Training to the Navigators and has assisted them in building their own confidence, capacity and capability to deliver this workshop in their own communities.

This training also comes in preparation for the WAAPI Youth Camp that the SEWB team will be supporting. The camp works with Dampier Peninsular families to strengthen and build emerging leaders to work towards a brighter future. We are excited to build on and continue a partnership with the DP Community Navigators!

Team-building can help support better relationships and improve communication between team members. They can also help introduce new team members to the colleagues they will work with. This also helps them get to know each other outside of a typical working environment.
