*ECG changes (See [MBS online quick guide](#))

Twelve-lead electrocardiography to produce a trace only, by a medical practitioner if the trace:

(a) is required to inform clinical decision making; and

(b) is reviewed in a clinically appropriate timeframe to identify potentially serious or life-threatening abnormalities; and

(c) does not need to be fully interpreted or reported on. The service is not applicable more than twice on the same day for different traces on the same patient.
